GENERAL POLICY ON THE USE OF AMOUNTS WHICH COULD NOT BE DISTRIBUTED

The amounts that cannot be distributed or that could not be distributed before the legal prescription period of 5 years (defined in Article L. 324-16 of the Intellectual Property Code) are those that cannot be distributed to the associates and beneficiaries, due to the lack of information allowing the identification or location of tracks, or to the absence of claim for the rights distributed despite the unsuccessful reminders made by the SPPF to the beneficiaries.

The SPPF uses these amounts in several ways:

- All amounts from compulsory **collective management**, registered in the security special account, provided under Article 7.2 of the Status are necessarily allocated to cultural actions (in accordance with Article L. 324-17. 2° of the Intellectual Property Code).
- The amounts from **voluntary collective management** of the exclusive right include, on the other hand, several allocations: these amounts may be allocated, by decision of the Administration Board, either to the operating budget or to cultural actions.

The amounts allocated to each of these purposes are allocated by the Administration Board every year.

It is recalled that the amounts collected by the SPPF for unidentified registrations falling under the voluntary collective management of the exclusive right are distributed to SPPF associates or their beneficiaries.

GENERAL INVESTMENT POLICY REGARDING INCOME GENERATED BY EXPLOITATION OF RIGHTS' AND REVENUES RESULTING FROM SUCH INVESTMENTS

Financial investments must be made and managed by the SPPF reasonably and without risk, with a focus on guaranteed rates of return, with the approval of the investment committee set up by the Administration Board.

In accordance with Article L. 324-11 of the Intellectual Property Code, financial investments:

- must serve the sole interest of rightsholders,
- will have to guarantee the safety, quality, liquidity and profitability of the entire **portfolio**,
- will need to be properly diversified to avoid over-reliance on a particular asset and build-up risks across the portfolio.

GENERAL POLICY ON MANAGEMENT FEES AND WITHHOLDING

In accordance with Article 7.2 of the Status, withdrawals are made to finance SPPF's management fees.

The percentage of these withdrawals is provisionally fixed by the Administration Board the beginning of each year according to the nature and origin of the rights, in accordance with the general policy on deductions established by the General Assembly.

The Administration Board may modify this percentage as often as necessary, even during the year, to ensure the balance of the management account and the continuity of SPPF's operations. At the end of each year, the Administration Board makes final decision on these percentages.

For the setting of these withdrawals' rates, the Administration Board must respect the principle of proportionality of management fees set out in Article L. 324-10 of the Intellectual Property Code, according to which " *The sums deducted in respect of management fees may not exceed the justified costs incurred by the organization for the management of the economic rights entrusted to it* ".

GENERAL POLICY ON THE USE OF AMOUNTS WHICH COULD NOT BE DISTRIBUTED DURING THE YEAR

In accordance with Article L. 324-17 of the Intellectual Property Code, all amounts collected under Articles L.122-10, L.132-20-1, L.214-1, L.217-2 and L.311-1 of the said Code and which could not be distributed, either pursuant to international conventions to which the France is a party, or because their addresses could not be identified or found before the expiry of a period of 5 years (Article L. 324-16 of the aforementioned Code), are used for the different types of financial support defined in Article R. 321-6.

These financial supports are the subject of SPPF Auditor's Report according to Article L. 326-8 of the Intellectual Property Code.
